TORCH

PREFACE

"Men do not know how what is at variance agrees with itself. It is the attunement of opposite tensions, like that of the bow and the lyre."
Heraclitus

The 1978 *Silver Lake Torch*, much like Heraclitus' wisdom, is concerned with attuning two distinct yet related campuses. In order to accomplish this, the yearbook has kept each campus separate but stressed the bond created between campuses through similar activities. We, the yearbook staff, feel that this year's theme, "Marching Towards Excellence," accurately reflects both the yearbook's and the school's concern with integrity.

EDITOR'S MESSAGE

This year everything has been geared toward the future. The future is a tough subject to comprehend, yet we must prepare for it.

To prepare for the years ahead we must do things today. The present is our most valuable tool in building a strong future, and how we "build" now will affect us later in some way. What we do with the present is entirely our own decision: We can work now, we can relax now, we can plan for the future now.

We cannot know what we shall be doing, hereafter, but we can anticipate what we might be doing years from now. Our goal should be: Live for today in preparation for tomorrow.

Laurie A. Kaiser
Editor-In-Chief

DEDICATION

Silver Lake Regional High School boasts a unique housemaster in the person of Mr. Douglass Coupe. Mr. Coupe is noted for his dymanic leadership and his ability to instill class spirit. During the past four years he has also provided an example for both students and teachers to imitate. His smile often lights up the hallways and his much sought-after advice has solved many student problems.

We, the class of 1978, would like to say, "Thanks, Mr. Coupe, for helping to make this class the success it has been."

WE REMEMBER . . .

SUPERINTENDENT'S MESSAGE

Throughout the years that are devoted to the attainment of an education, we encounter many difficult and seemingly insurmountable obstacles.

Each obstacle creates a problem to be solved – each solution provides an opportunity for growth.

"Education is the Apprenticeship of Life"

Wilmott

Robert E. Hiltenbrand
Superintendent of Schools

Even though many did not know him personally, he touched the lives of those who did. His "gung ho" attitude in getting things underway will be a lasting impression of Doctor Hiltenbrand. He always had great dreams that he firmly believed he could achieve.

Olly de Macedo
Chairman of the
Superintendent's
Advisory Committee

"To accomplish great things, one must not only act, but also dream, not only plan, but also believe."

ADMINSTRATION

Prinicipal's Message

"What am I, and where am I going?" is an increasingly obsessive crie de coeur of educated young men and women. There now seem curious incongruities attached to their lives, and answers, as elsewhere in life's circumstances, seem harder to come by. But why? Many young men and women have, after all, performed admirably.

The Class of 1978 has seriously reflected its educational background and hopefully will continue to do so in all future endeavors. I would like to extend my personal best wishes for success and good fortune.

Sincerely yours,

Albert F. Argenziano

Housemaster's Message

While your days at Silver Lake were limited compared to a lifetime, we have endeavored to do our very best to prepare you for the life which you will soon enter. As you embark on your new endeavors, remember that education is a lifelong process. Maintain your pride in yourself, your love for others, and a warm friendly smile, and life will be the best it can be. I would like to personally wish each of you all the best.

With warmest regards,

"Indeed!"

"You horrid, wretched child!"

"You are a gentleman and a scholar."

"Et tu, Brute."

"I'm sure that's a viable argument, but . . . "

Reflections Back

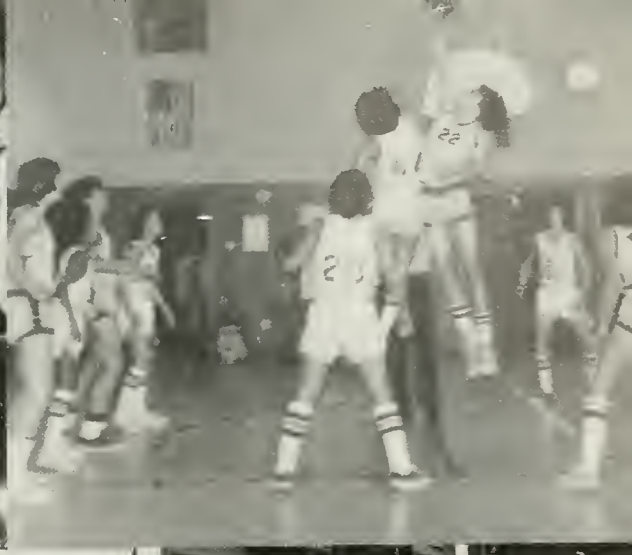
"Old MacDonald had a farm. Eeiye, eeiye, o . . . "

First grade was little less than a traumatic experience. You felt so inferior because you were only a little squirt who didn't know anything.

"Columbus sailed the ocean blue it fourteen hundred and ninety two . . . "

By the second grade, you were a real scholar. You read bigger books, and you could even add and subtract two column numbers.

"Down in the meadow where the green grass grows — there sat Mary, pretty as a rose . . . "



The fourth grade Thanksgiving play was an unexpected comedy. John Alden's hat was too big, and Priscilla tripped on her dress. It was embarrassing, but the parents clapped anyway.
"Jack and Jill went up the hill . . . "

During the sixth grade, you developed your own ideas so that protests on playground rights were common. Upon completion of this grade came graduation. As every pupil nervously received his diploma, onlooking parents swelled with pride mingled with sadness. "It's a world of laughter . . . "

EDITOR'S MESSAGE

Every year the Editor-In-Chief writes a message on how hard the yearbook was to put together. This year was no different. It took a lot of time and effort from every single person that was involved. I feel we all did a great job on the yearbook thanks to the spirit all of the staff had. It was a pleasure to work with a fine group of people. I'd also like to thank Mrs. Brackman and Mr. Peloquin for all the advice and much needed help they gave us. All in all it was a great year, so thanks to all who made it that way.
